

**Emerging Products Development Group is excited to announce that DynaPep® Energy is Now Available in the Czech Republic**

**August 1, 2011: Boca Raton, FL** – DynaPep® Energy, creator of the world’s first Supercharged Energy Micro-shot, is now offering all three flavors (mint, cinnamon and berry) in the Czech Republic.

Emerging Products Development Group (WFI), CEO Lisa Krinsky stated, “The Czech Republic has one of the most developed and industrialized economies in Central and Eastern Europe, making it a perfect market for DynaPep’s® Micro-Shot. The country has displayed amazing growth and success in the last 15 years. It is an honor to market our product to the Czech people. With all 3 flavors now available, we expect a huge impact on our growth in this region. There are millions of people living in Eastern Europe and this is just the start of our new aggressive campaign there. We see ourselves expanding throughout the region over the next 3 years; our goal is to be the dominant energy drink in the marketplace.”

About Czech Republic:

The Czech Republic was established on January 1, 1993 and is roughly the size of the state of Virginia. With a population of 10.5 million, the country boasts a booming economy. The principal industries are motor vehicles, machine-building, iron and steel production, metalworking, chemicals, electronics, transportation equipment, textiles, glass, brewing, china, ceramics, and pharmaceuticals. The main agricultural products are sugar beets, fodder roots, potatoes, wheat, and hops. As a small, open economy in the heart of Europe, economic growth is strongly influenced by demand for Czech exports and flows of foreign direct investment (FDI). Czech Republic’s capital is Prague, a city shrouded in history and culture, and is a great travel destination for tourists. For more information, please go to: <http://www.czech.cz/>.

About DynaPep®:

DynaPep® is the manufacturer and distributor of the world’s first Energy Micro-Shot. Packaged in a liquid 4ml twist-off top ampoule, its time-released suspension ensures hours of long lasting energy without the jittery "crash" that other products cause. This is the result of active ingredients derived from natural sources without the help of sugar and the Micro-Shot contains less caffeine than 1 cup of coffee. DynaPep® products are available in over 75,000 locations in the United States. DynaPep® is a wholly owned subsidiary of Emerging Products Development Group. EPDG, is a Canadian based holding company listed on the Frankfurt Exchange ([Frankfurt: WFI](#)) that is focused on acquiring and distributing health and wellness products on a global scale.
