

## **DynaPep® Energy Products Now Available in Jamaica**

**August 22, 2011: Boca Raton, FL** – DynaPep® Energy, creator of the world’s first Supercharged Energy Micro-shot, is now offering all three flavors (mint, cinnamon and berry) in the country of Jamaica.

DynaPep® Vice President Steve O’Donnell stated, “Jamaica is the third most populous English Speaking country in the Americas with over 2.8 million people. The people are educated and focused on tourism and customer service, making it a perfect market for DynaPep’s® Micro-Shot. The country has displayed amazing growth and success in recent history and we are pleased to have extended our distribution to the area.”

Lisa Krinsky, CEO of Emerging Product Development Group, parent of DynaPep® continued, “It is an honor to bring our products to the Jamaican people. With all 3 flavors available, we expect a significant impact on our growth in this region. There are millions of people that travel and go to Jamaica each year and this is just the start of our new aggressive campaign in this area. Our goal is to be the dominant energy product in the marketplace.”

About Emerging Products Development Group:

EPDG, is a Canadian based holding company listed on the Frankfurt Exchange ([Frankfurt: WFI](#)) that is focused on acquiring and distributing health and wellness products on a global scale. Presently the company owns DynaPep® Corporation, which is the developer, manufacturer and distributor of the world’s first Energy Micro-Shot, and is reviewing opportunities to expand organically and through the acquisition and distribution of additional patented or proprietary products.
